Smoker

Bees are calmed by puffing a little smoke on them. It doesn't hurt the bees- it makes them want to eat HONEY!

Hive tool

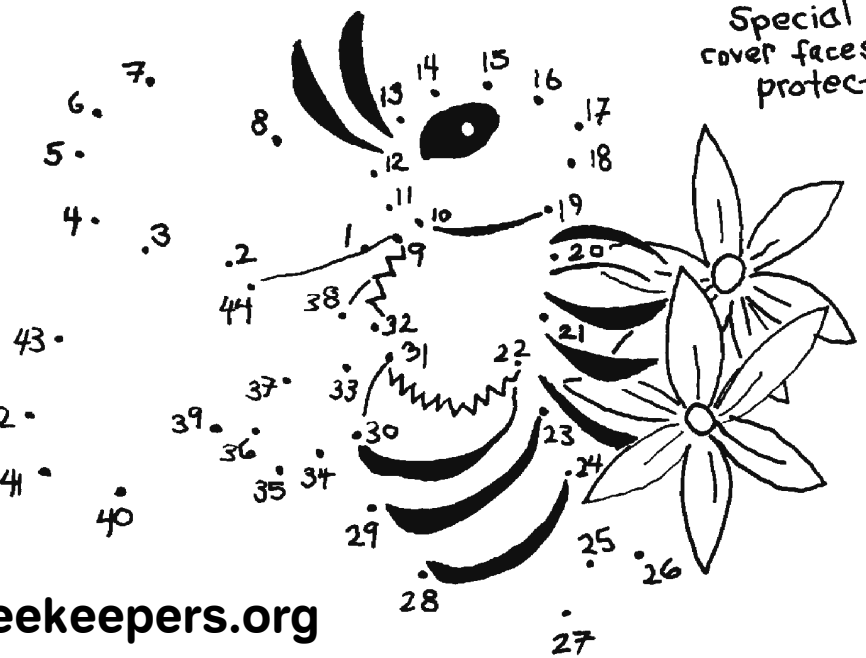
This tool helps lift honeycomb out of the hive.

the bees store honey in this box on the top, called the SUPER.

Beehive

This is where the bees raise their babies, called Brood.

NMBKA
New Mexico Beekeepers Association



Bee Veil

Special veils cover faces for protection

Bee Suit

Honeybees are gentle. Suits are worn just in case.
